DETAILED ACTION

Response to Amendment

This office action is in response to remarks and amendments filed on May 10, 2010. The amendments and remarks filed have been entered and made of record. Claims 1-19 are pending.

Allowable Subject Matter

Claims 1-19 are allowed and subject to overcoming 35 U.S.C. 101 as discussed below.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-19 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1-19 are not statutory because they are directed towards a system comprising intercepting multimedia documents through modules which could be implemented via software alone. Examiner notes for system claim the claim limitations such as, module for intercepting and processing packets may be merely implemented as a software module, and thereby the claims may be reasonably interpreted as being not limited to hardware elements and claims may be merely directed to software per se as a non-statutory subject matter for a system claim.
